Verses 41-45 is a prophecy about the remnant of the "iron" from the legs that will be present in the "feet" and "ten toes" during the last days. The ten toes will be composed of iron and "potters clay" and they are prophesied to not cleave together very well. These ten toes of mixed iron and clay will compose a final world power that will govern the earth before it is destroyed and replaced by a new kingdom which will be installed by "the God of heaven."

virus or feline immunodeficiency virus infection, although lots of cats are negative for both of these viruses when the cutaneous horns are found, as well, just like yours.

Foot Problems in Cats - VetInfo

Classifications History. Ungulata is a clade (or in some taxonomies, a grand order) of mammals. The two orders of ungulates were the Perissodactyla (odd-toed ungulates) and Artiodactyla (even-toed ungulates). Hyracoidea (hyraxes), Sirenia (sea cows) (dugongs and manatees) and Proboscidea (elephants) were in the past included in a superorder called Paenungulata which was grouped with the ungulata.

Ungulate - Wikipedia

The ram's horn squid has never been officially recorded in its natural habitat despite their small shells being a common find on beaches all over the world. Via Wikipedia: "The shell of Spirula is extremely light, very buoyant, surprisingly durable; it commonly floats ashore onto tropical beaches (sometimes even temperate beaches) all over the world.
