The 2019 U.S. Solar Industry Diversity Study is a followup to a previous report released by The Solar Foundation in 2017. This study was the first comprehensive research on diversity in the solar workforce, including the representation of women, minority groups, and veterans. In addition to its detailed survey findings, the study included five action items that solar companies can implement to improve diversity.

Solar Industry Diversity Study - The Solar Foundation

The solar information packet that was created through this process is now called the “ California Solar Consumer Protection Guide. ” In February 2020, the CPUC adopted Decision (D.)20-02-011 which modifies Decision (D.)18-09-044.

California Solar Consumer Protection Guide

SRA will also help conduct solar energy production and financial feasibility studies. The redevelopment of the city-owned landfill site into a solar farm will help spur a viable local market for solar energy systems and lead to the creation of the jobs. 1.3 Technical Assistance Overview
