international law plays in different legal fields, and the impact that it asserts on state and non-state actors. First, this Article describes the transformation of international law by focusing on four different phenomena: the proliferation of actors, norms, and organizations in international law;

The Evolution of International Law

This chapter discusses that across the board, international law is an important part of the structure of our international society. It adds that states accept it as such, and their record in observing it bears comparison with the level of law observance in many countries. It stresses that international law is a part of the structure for it is an

International Humanitarian Law and the Changing Technology of War. Increasingly, war is and will be fought by machines – and virtual networks linking machines - which, to varying degrees, are controlled by humans. This book explores the legal challenges for armed forces resulting from the development and use of new military technologies – automated and autonomous weapon systems, cyber weapons, “non-lethal” weapons and advanced communications - for the conduct of warfare.

Uphold International Law | United Nations

The development of international law in new fields such as cyber law and space law raises the question of whether existing IDS institutions are adequate or whether new institutions are required. Questions are also raised as to whether existing dispute settlement mechanisms have the legitimacy to deal with issues involving public interests, such as health, environment, and human rights.
